Ratings

Everything the panel needs to understand the system at a glance: marketplace flow, admin control, communication, payments, tracking, reports, and trust signals.

01

Marketplace Browsing

Searchable item listings with categories, filters, sorting, and item detail pages.

02

Admin-Reviewed Listings

Listings pass through approval or rejection before appearing publicly.

03

Messaging & Meetup Coordination

Buyer and seller conversations support meetup proposals and responses.

04

Flexible Payments

Accepted payment methods and payment proof upload support real workflows.

05

Rental Tracking

Rental duration and due-date tracking help students manage borrowed items.

06

Reports & Receipts

Printable receipts and reports document completed marketplace activity.

07

Student Ratings & Reviews

Transaction-based ratings build trust between buyers, renters, and sellers.

08

Notifications & Transaction Monitoring

Important approvals, requests, messages, and completions stay visible.
